TEN ESSENTIALS for HEALTH & WELLNESS

Good health is a gift to be treasured and nurtured every day. TriVita joyfully shares these keys to helping you experience wellness: the 10 essentials of physical, emotional and spiritual health.

PHYSICAL

1. Breathe Deeply
2. Drink Water
3. Sleep Peacefully
4. Eat Nutritiously
5. Enjoy Activity

EMOTIONAL

6. Give and Receive Love
7. Be Forgiving
8. Practice Gratitude
9. Develop Acceptance

SPIRITUAL

10. Develop a Relationship with God

Energy All Day... Every Day!

Feeling good is such a good feeling! A little play on words but how true it is. When we feel good and have energy and vitality, everything seems better.

To have energy all day every day, think of building a reservoir of energy. In that reservoir, you need mental energy that replaces that feeling of mental fogginess and fatigue. Cellular energy is probably the least understood and most ignored by most people. In our caffeine and sugar stimulated society, we think the feelings we get from a sugar or caffeine high is the feeling of energy. Caffeine will jolt your adrenals, but that was most beneficial when saber tooth tigers roamed the earth!! While it has short-term effects, it is not what you get from cellular energy which is the healthy sustainable energy. The all-day... everyday energy.

There are two products we are offering this month that will increase your energy reservoir with added benefits that help support many functions in your body. They are Alfred Libby's original patented B-12 formula and CoEnzyme Q-10. These two products will support all-day, everyday energy.

Essential B-12 is known as the feel-good vitamin, but it has significant benefits that go beyond just feeling good. It is an essential vitamin as it also helps make red blood cells which bring oxygen to your organs and cells, and is necessary to support the nervous system and brain plus a host of other benefits.

CoEnzyme Q-10 (CoQ10) is a natural substance that helps fight oxidative stress and prevent tissue damage at the cellular level. You may not know much about your mitochondria, but your mitochondria, or cellular energy factories, need CoQ10. It also helps slow the effects of aging. So if you are past 50 years of age, this will be an essential supplement for your energy reservoir. Also, I want to make you aware that if you are on statin drugs, your CoQ10 levels could be compromised.

Now combine those two products with your God-given purpose, and you will live a more energetic and engaging life...all day and every day.

B-12 RESEARCH

B VITAMINS AND DEPRESSION

An exciting new study showed that supplementing anti-depression medication with B vitamins significantly improved treatment outcomes for older adults suffering with depression.

Scientists from the University of Western Australia (UWA) set out to discover if supplementation with Vitamin B-12, B-6 and folic acid could enhance response to anti-depression treatment over the course of a year. In their study, 153 participants with established depression were given anti-depressant medication along with a B vitamin supplement or placebo.

Publishing their results in *The British Journal of Psychiatry*, researchers reported that although the B vitamins didn't significantly affect treatment after 12 weeks, they did improve treatment outcomes after 52 weeks of use, even helping to prevent relapse of symptoms.

"The risk of relapse was significantly reduced among participants who took the B vitamins. Previous work had suggested that certain vitamins could have a role in preventing depression, but this is the first time that we have been able to demonstrate unequivocally that we can improve the treatment of depression by supplementing medication with B vitamins," said Winthrop Professor Osvaldo Almeida, research director of UWA's Center for Health and Aging.¹

B-12 DEFICIENCY A RISK FACTOR FOR FALLING?

Citing past research that associated nutritional status with the risk of falling, Irish scientists from Trinity College, University of Ulster and St. James's Hospital, set out to determine if Vitamin B-12 deficiency in particular had any effect on falling risk in older adults (extensive data show Vitamin D and calcium play a role in prevention of falls).

Researchers recruited 4,939 older Irish adults from the Trinity, Ulster, Department of Agriculture (TUDA) observational study to assess B-12 status and the risk of falling. Blood samples were taken and lifestyle questionnaires administered to determine participants' respective B-12 levels and history of falls.

Of the nearly 5,000 recruits, 36.3% reported a fall within the past year; researchers found there was a significant link between B-12 deficiency and the risk of falling. Researchers suggest the results show the potential importance of B-12 status in the prevention of falls, and underscore the importance of addressing B-12 deficiency in older adults. Their study appeared in the *Proceedings of the Nutrition Society*.²

THE VITAMIN B-12/ENERGY LINK

Vitamin B-12 plays a key role in metabolism—all the physical and chemical processes in the body that convert or use energy. These body functions include everything from breathing and blood circulation to contracting muscles and eliminating waste.

B-12 also helps form red blood cells and keeps our central nervous system running. When we don't get enough of this powerhouse vitamin, a whole host of physical and mental problems can ensue, such as:

- Fatigue
- Loss of balance
- Anemia
- Memory problems

Ideally, we'd get all of the B-12 we need from animal products such as eggs, meat, milk, poultry and shellfish. However, very few of us eat ideally. Plus, as time passes, the body is less able to absorb all the B-12 it needs.

WHY I RECOMMEND SUPPLEMENTATION

B-12 plays a critical role in metabolism, and metabolism affects both our physical and mental functioning. In my own practice, time and again I've seen many patients make remarkable turnarounds once their B-12 deficiency was diagnosed and corrected.

An associate of two-time Nobel Prize Laureate Dr. Linus Pauling, Alfred Libby pioneered the B-12 delivery system that delivers B-12 under the tongue right into the bloodstream.

Alfred Libby's Original
Patented B-12

Essential vitamin support for energy, mental clarity and focus

Why our formula matters

Alfred Libby's Slow Dissolve B-12 Tablets were formulated with his patented technology that enhances the absorption of these critical nutrients.

While chewing and swallowing Alfred Libby's Slow Dissolve Tablets might be tempting given their sweet taste, it is crucial to their effectiveness that you allow them to dissolve completely under the tongue. You'll still get the great taste, plus the full benefit of these nutrients... his patented slow dissolve process helps to make sure you get the B-12 you need when you need it!

Formulation features:

Alfred Libby's Slow Dissolve B-12

- 1,000 mcg of B-12
- 400 mcg of folic acid
- Includes Vitamin B-6 and Biotin
- Original berry flavor
- No artificial preservatives

THIS PRODUCT IS ALSO GREAT FOR:

 **CARDIOVASCULAR SYSTEM SUPPORT**

 **BRAIN & NERVE HEALTH SUPPORT**

Suggested Use: Adults take 1 slow dissolve tablet daily or as directed by a healthcare professional. Let dissolve in mouth or under tongue; do not swallow whole. Do not use if pregnant or breastfeeding. Consult a healthcare practitioner prior to use if you are taking Levodopa.

Alfred Libby’s Slow Dissolve B-12 Tablets

Quantity: 30 tablets **Serving size:** 1 tablet.

Amount per serving: Vitamin B12 (cyanocobalamin) 1000 mcg, Folate (folic acid) 400 mcg, Vitamin B6 (pyridoxine hydrochloride) 5 mg, Biotin 25 mcg.

Other ingredients: Sorbitol, mannitol, stearic acid, silica, magnesium stearate, natural flavor, stevia leaf extract, alphaketoglutaric acid, sodium starch glycolate.

Member Spotlight

IN THE PURSUIT OF WELLNESS

“I have hope again and am motivated to continue my health journey. With TriVita there, I feel like I am not alone in this!”

Laura Burford, Member since 2004, hardly ever visited the doctor. She always felt “fine” and never saw the need, until she received routine health screening at work; Laura was diagnosed with diabetes and hypertension. After this diagnosis, she followed her doctor’s recommendations, but she knew she needed to do more.

“In the last ten years, things caught up with me. That was a whole process because I was in denial and I was angry. I had a lot of knee pain that turned out to be severe stage osteoarthritis. I couldn’t believe it; I just took my health for granted. I wasn’t doing anything to keep it and a lot of wrong things that hurt my health.”

From that point on, Laura was dedicated to learning how to fuel her body and live a healthier life. “I found a couple of reputable companies that I thought I could trust and started taking some supplements. Then I saw an ad about TriVita and Alfred Libby’s Slow Dissolve B-12 for energy. I ordered some and what a

Laura and friend, Susan
at Cannon Beach

life changer! I got the Super B-12, and I haven’t been without it since and never want to be.”

After seeing that first program about TriVita’s Slow Dissolve B-12, Laura began reading the monthly catalogs and learning more about the body. From there she tried different products, “I added Nopalea to try and Adaptuit because stress has always been a problem for me. Then I ordered Nerve Formula because of my diabetes. These products really helped me feel better along with physical therapy. I want to save my own parts as long as possible rather than having surgery. The Adaptuit has helped me have a better attitude so that I can nurture the relationships in my life and work.”

By the winter of 2016, Laura began feeling rundown and learned she had anemia. She was losing hair, her nails were splitting and lacked the energy she usually had. While her doctors tried to identify the source of her anemia they discovered an ulcer and benign tumor. To make matters worse, while preparing to undergo a small bowel resection, they found several large tumors on her ovaries and uterus. “It felt like a whack-a-mole game. What was going to pop up next?” And something did; “My piriformis muscle was swollen and pressing on my sciatic nerve. It was the worst pain I’ve ever experienced. I went to

“I sound like a real mess, and I have felt that way too, but the great TriVita products and the encouragement and knowledge I am getting from them help me know that I can overcome and be healthy so I can enjoy my life.”

physical therapy and realized that I had stopped taking the Nerve Formula and gotten lax about taking Nopalea. Now I know the value of stretching and won't stop taking Nerve Formula and Nopalea again.”

In addition to these longtime favorites, Laura started using MyoHealth to help her regain the muscle she's lost. “It is truly helping me feel stronger and able to exercise. This is amazing because I was sedentary for so long. My last surgery is behind me, and I want to make this my year of wellness! I am increasing my strength, mobility and overall health. It's like my job now to be as healthy as I can so I can live a good life and help others!”

“I sound like a real mess, and I have felt that way too, but the great TriVita products and the encouragement and knowledge I am getting from them help me know that I can overcome and be healthy so I can enjoy my life.

Laura and friend, Judy at Honey Bee

Even though I had wonderful doctors and surgeons and I am grateful for how much they have helped me, I would much rather spend my time and money on these products so I can live a healthy and productive life.”

For anyone looking to improve their health, Laura offers this advice, “First of all, never give up hope! Find what you can, for

me, it is faith and believing that He is the healer. But I also know that I have to do my part. I have a responsibility to do what I can to build my health even though it's a long process. We all have struggles, but everything can get better if we learn what we need to do and apply it. A lot of people are just like I was, they just don't know.”

Want to give the gift of wellness?

Just call **1-800-344-8797** and let us know you'd like to ship something special to your friends or family. We'll take it from there.

And thanks for choosing us to help you help others.

Healthy antioxidant and immune support start here

Experience greater wellness with Nopalea™

AUTHOR BIO:
ROBERT SHEELER, M.D.

Dr. Robert Sheeler is a Board Certified Family Physician who spent a substantial part of his career at Mayo Clinic. In addition to Family Medicine, he is also Board Certified in Integrative Medicine and Urgent Care, and is certified in Functional Medicine.

The fruit of the Nopal cactus has been used by indigenous cultures for many centuries for its healing properties. Many of the plant’s benefits are thought to derive from a powerful class of nutrients called Betalains. Betalains are compounds found within the prickly pear (nopal) fruit that have powerful antioxidant properties. They’re also what give the cactus fruit its distinctive bright red color.

After learning of the restorative qualities of the nopal fruit, which is found in the Sonoran Desert in the southwestern U.S. and in contiguous areas of northern Mexico, TriVita® went to work to create Nopalea. However, while Nopalea is derived principally from these wonderfully restorative fruits, we didn’t stop there. To further enhance Nopalea’s therapeutic qualities, we combined the Nopal cactus fruit with a number of other plant-based ingredients known to have various health benefits. These ingredients include everything from beet juice and papaya to raspberry, cranberry and pomegranate.

Nopalea has two significant health properties. Along with the other ingredients, the Nopal cactus has both antioxidant and anti-inflammatory effects. Diets rich in fruits and vegetables have been shown to contain levels of antioxidants that confer health benefits, hence the recommendation from most health experts to include several servings per day of fruits and vegetables. Nopalea combines several different ingredients to have a broad spectrum of antioxidant compounds.

At the level of our cells much of the damage that occurs is from oxidation. Our bodies need to combine oxygen

with the foods we eat to efficiently create energy. This process of creating energy using oxygen produces high amounts of energy and also creates free radicals, which can harm the cells themselves. The body’s immune system also uses intense bursts of reactive oxygen species to defend itself. Both of these processes create species of oxygen molecules that can damage healthy cells.

.....
For much of human history, our diet was rich in healthy antioxidants. It is only recently that we replaced large portions of fruits and vegetables with foods like French fries and charred burgers, both of which have high levels of compounds that contribute to oxidative damage in the body. Eating more fruits and vegetables and taking products like Nopalea may help offset some of the damage to our bodies that is continually being caused by harmful foods and other chemicals we encounter on a regular basis in our modern society.
.....

Nopalea also has anti-inflammatory effects in the body. Research on Nopalea has shown that it decreases inflammatory markers in the body such as CRP – C-reactive protein, which can be an indicator of both local and body-wide inflammatory states. Studies and customers have both demonstrated that Nopalea can improve conditions that may be related to inflammation. Many patients report they have benefited from a higher initial dose of Nopalea for the first 1-2 months, followed by a lower maintenance dose on an ongoing basis.

Given the damaging effects of both inflammation and oxidation on the body, products such as Nopalea that contain healthy plant antioxidants and have been proven to reduce inflammation may be a wise choice for modern times.

This article is intended for educational purposes only.

What is inflammation?

As an essential part of the body's healing process, inflammation occurs at the cellular level when the immune system tries to fight off disease-causing germs or debris from an injury and repair the injured tissue.¹ Once the fight is over, the inflammation-triggering substances are supposed to retreat. When they don't, it destroys the balance in your body and makes you more susceptible to aging and disease.²

WHAT CAN CAUSE INFLAMMATION?

The lifestyle of the western world bombards us with more inflammatory triggers than our bodies can handle. This includes:

A convenience diet – Processed foods, refined sugar, simple carbs and refined grains. Simple sugars and starches elevate insulin levels, triggering inflammation.

High omega-6 fatty acids intake – This comes from popular processed oils like vegetable, safflower, canola, corn or margarine. Omega-6 sets off inflammatory precursors, which encourage your system to overreact to normal stimuli.

Smoking (or inhaling second hand smoke) –

Smoking creates free radicals that lead to atherosclerosis and also create more inflammation, which increases plaque formation in arteries.

Too little or too much exercise – Just as lack of exercise promotes low-grade inflammation, over-exercising puts your body in a chronic state of inflammation because your tissues can't properly rest and recover.

Stress or lack of sleep – Both situations release the hormone cortisol, creating inflammation. The longer you're under stress or get fewer than 8 hours of sleep each night, the more inflammation you create.

Excess bodyweight – Fat cells release cytokines (small secreted proteins that affect inter-cell communication). And excess fat cells create a constant, low-grade inflammation throughout the body.

Certain foods – Refined carbohydrates, such as white bread and pastries, French fries, margarine, shortening and lard, certain red meats, soda and other sugar-sweetened beverages all lead to inflammation.³

How to combat inflammation

Exercise³

Stay physically active to lower inflammation in the body. Getting 30-45 minutes of moderate-intensity aerobic exercise five or more times per week may help.

Eat Better⁴

Eat more foods like tomatoes, green leafy vegetables such as spinach, kale and collards, nuts like almonds and walnuts, fatty fish like salmon, mackerel, tuna and sardines, and fruits such as blueberries, cherries, strawberries and oranges.

Take Supplements⁵⁻⁷

Boost your body's vitamin level by taking Vitamin A, Vitamin B6 (see *Alfred Libby's B-12*, page 8-9), Vitamin C (see *Vital C*, page 27), Vitamin D (see *Essential D*, page 28), Vitamin E, Vitamin K (see *VitaCal-MagD K2*, page 24), Betalains (see *Nopalea*, page 15), Omega 3 (see *Omega3 Prime*, page 23) and Turmeric.

Protect your body with Nopalea

Maintaining the mobility and vitality to do what you love is essential to living a fulfilled life. Even though you stay active and try to fuel your body with the right nutrients, it may not be enough. Your body is constantly fighting off germs, bacteria and other threats that can damage your cells and hinder your health.

Inflammation is necessary for a healthy body. When cells face injury and stress, your immune system responds with inflammation to restore impaired cells and protect the healthy ones. However, if inflammation is unmanaged, it may leave you more vulnerable to adverse health conditions.

Rebalance inflammation and immune support with Nopalea

It's not possible to avoid every environmental and biological trigger, but you can support your immune system's normal and essential anti-inflammatory functions with Nopalea. Research on Nopalea has shown that it decreases inflammatory markers in the body such as CRP – C-reactive protein, which can be an indicator of inflammation.¹

Nopalea contains a high concentration of plant-based nutrients called Betalains that have potent antioxidant properties and gives Nopalea its rich ruby color. Betalains strengthen antioxidant defenses and help protect cells from oxidative damage. It does this by neutralizing your body's inner toxins and helps to reduce inflammation. Nopalea provides your body with the relief it needs today while protecting it against tomorrow's dangerous health conditions.

Protect your cells for better health

Healthy cells are in a state of balance, but when cells are under stress, they cannot repair themselves normally. When you drink Nopalea, Betalains begin to restore your body's vitality at the cellular level. They do this by helping your body reduce the toxins surrounding cells, which allow essential nutrients to reach each damaged cell and nourish it. As a result, cells are energized to replace damaged tissues, reduce reactive inflammation and rebalance the natural inflammatory response.

To enhance Nopalea's therapeutic qualities, we combined the Nopal cactus fruit with other plant-based ingredients known to have various health benefits. These ingredients include everything from beet juice and papaya to raspberry, cranberry and pomegranate. Nopalea may help to offset some of the damage caused by our modern lifestyles and lower inflammation.

Nopalea

Healthy antioxidant support from the Sonoran superfruit

Since we first introduced it nearly ten years ago, Nopalea has been a top product and for a good reason! Nopalea is a delicious, nutrient-dense drink originating from the fruit of the Nopal cactus (also known as prickly pear) found in the Sonoran desert. The superfruit contains potent antioxidants called Betalains that restore your body's vitality at a cellular level.

With daily use, Nopalea may help your body:

- Support the normal and essential anti-inflammatory function performed by the immune system
- Reduce inflammation
- Detoxify
- Promote cellular health

"I had back and nerve issues and Nopalea helped a lot. It's the only product that worked. I've now been taking it for 8 years."

- Brigida P.,
Member since 2004

"I've never felt better since I started taking TriVita products, especially Nopalea."

- Real D.,
Member since 2010

LIVE STRONGER AT ANY AGE™ WITH MYOHEALTH®

Whether you're an older adult looking to increase your mobility and enhance your quality of life or a weekend warrior chasing a new personal best, we'd all like to build leaner, stronger muscle mass. Unfortunately, we don't always have the time to eat properly or get the amount of exercise we should.

More energy. More vitality. More strength. More mobility.

To ensure every year is a great year, regardless of your age, TriVita has created an exciting new breakthrough in nutrition science—the MyoHealth® line. Initially developed to stop, restore and prevent muscle loss in astronauts and bedridden seniors, MyoHealth contains a perfectly blended mix of all nine Essential Amino Acids (EAA), which have been proven in human clinical trials led by Dr. Robert Wolfe to help support muscle strength and function by helping your individual muscle fibers work better.

As the first—and only—EAA complex to contain Dr. Wolfe's patented Essential Amino Acid formula, the EAA blend in MyoHealth represents a monumental

breakthrough in nutritional science. Amino acids play a key role in the synthesis of new protein, and each of the nine amino acids found in MyoHealth is needed to jumpstart the protein molecule process. That's important because **EAA can't be produced in the body. You can only get them through diet or supplements.**

There are 20 primary amino acids in your body's proteins, 9 of which are essential to your diet because your cells cannot manufacture them. These amino acids (histidine, isoleucine, leucine, lysine, methionine, phenylalanine, threonine, valine, and tryptophan) are known as Essential Amino Acids.¹

Over 20 years in the making, MyoHealth's formula was developed based on findings from the National Aeronautics and Space Administration (NASA), research funded by the National Institutes of Health (NIH) and 24 human clinical trials. The research was led by Dr. Robert Wolfe, a leading authority on amino acids, a renowned expert in the fields of nutrition and muscle metabolism and a record-setting amateur athlete.

WHAT THEY'RE SAYING ABOUT MYOHEALTH:

“ *As you get older you lose muscle; you just do. But since I started taking MyoHealth, I can now open lids without any additional assistance, including water bottle lids, which I never could do before. I began taking MyoHealth about a month ago, and now I'm just stronger all over. I've even seen my muscles become tighter and my body take on more tone. I can even run up and down stairs again. I just feel really good.*

MyoHealth has surpassed my greatest expectations—and it tastes great, too! Everybody needs to be on this product.”

— Donna P.,
member since 2010

“ *I just finished the 30-Day MyoHealth Challenge, and all I can say is WOW! I have an inflammatory condition and experience a lot of discomfort, especially in my back. Since taking MyoHealth, my discomfort has reduced and I feel stronger every day. At 68-years-old I can now walk up the stairs without holding onto the railing and feel stronger and more energetic than I have in a very long time. I love MyoHealth!”*

— Ruth D.,
member since 2004

“ *Since I started taking MyoHealth and completed the 30-Day Challenge, I've experienced increased energy and the muscles everywhere on my body have begun taking on new dimensions. My physiotherapist of 10 years asked why I suddenly have the calf muscles of a cyclist. Little does she know that I haven't been on a bike in 20 years. MyoHealth is truly an amazing product!”*

— Alain G.,
member since 2009

“ *When I was younger, I was very active and played football in both high school and college. But as the years passed, I became more sedentary and my activity, ability and fitness level all steadily declined. At the urging of my family, I finally joined a gym, and taking MyoHealth Essential Amino Acid Complex prior to my workouts has given me the added boost I need. Plus, I feel like I recover quicker. Thanks, TriVita!”*

— Kevin B.,
member since 2011

“ *Since starting on MyoHealth, I'm more active, my strength training and cardio exercise have improved, and so has my energy!”*

— Susan T.,
member since 2000

Essential amino acids: The backbone of MyoHealth®

Build muscle the EAAasy way

With hundreds of companies touting thousands of supplements, how can you be sure that MyoHealth is any different than all of the other products that promise to build stronger, leaner muscle? Simple. With MyoHealth Essential Amino Acid (EAA) Complex, it starts with the perfectly blended mix of all 9 EAAs that go into every canister and the years of science that went into developing this formula.

What's so important about Essential Amino Acids?

- Muscle is the main reservoir of amino acids in the body¹
- Muscle needs protein to grow, but the body cannot produce protein on its own
- Essential Amino Acids are the cellular building blocks of protein¹
- Muscle is always in a state of breakdown and synthesis, or "turnover," which is an important process to get rid of old damaged muscle fibers and replace them with new healthy fibers¹
- Muscle serves many important metabolic functions beyond supporting physical movement

MyoHealth contains the first U.S. patented Essential Amino Acid (EAA) complex that includes all 9 EAAs. But it wasn't easy getting there. The formula behind our Essential Amino Acid Complex took 30 years to develop, cost over \$20 million in research and development and underwent 25 human clinical trials, including NASA space flight and patient bed rest studies.

Available in a delicious easy-to-mix lemonade flavor, MyoHealth Vegan powder includes:

- The daily recommended dosage of 3.6 grams of EAAs per scoop
- No sugar or carbohydrates and no side effects
- Stevia, a natural sweetener
- Generally Recognized as Safe (GRAS) certified EAA formula

“I'm 64, slightly overweight and have had 2 knee operations. My job includes looking after a fit and energetic young autistic man and we often hike together for exercise. While it normally takes us 90 minutes and leaves me huffing and puffing and my muscles aching, since taking MyoHealth we now complete our hike in 75 minutes and I leave my young companion out of breath.”

— Bernard O.
member since 2008

MyoHealth Amino Acid Complex Vegan Capsules:

- Clinically proven to support muscle strength and function while decreasing muscle loss
- GMO free and contain no fillers, additives or preservatives
- GRAS certified EAA blend
- Contain a perfect balance of all nine essential amino acids to help your body synthesize protein and optimize your muscle health

Reference: 1 Robert Wolfe, *Essential Amino Acid Solutions for Everyone* (unpublished, 2016), 29.

Studies show compared to whey protein isolate, faster-acting MyoHealth Vegan capsules and powder delivers

Reference: Katsanos CS, H Kobayashi, M Sheffield-Moore, A Aasland, RR Wolfe. A high proportion of leucine is required for optimal stimulation of the rate of muscle protein synthesis by essential amino acids in the elderly. *Am J Physiol Endocrinol Metab* 291:E381-E387, Aug 2006

MyoHealth® Essential Amino Acid Complex - Vegan Lemonade Powder

#30870 **\$59.99**

Earn 240 VitaPoints!

Suggested use: Adults, mix 1 (one) scoop of MyoHealth EAA Complex lemonade powder with 237 ml. of water or your favorite beverage and dilute to taste.

While it typically takes 4-6 weeks to see results, we recommend adding 1 (one) extra scoop during the preliminary phase to bring your body up to speed sooner.

MyoHealth® Essential Amino Acid Complex - Vegan Capsules

#30840 **\$59.99**

Earn 240 VitaPoints!

Suggested use

Take five (5) MyoHealth capsules daily between meals or 30 minutes before or after your exercise. Additional capsules may be taken with increased exercise.

While it typically takes 4-6 weeks to see results, however results vary.

MyoHealth® Essential Amino Acid Complex - Lemonade Powder

Quantity: 180 g (6.35 oz) **Serving size:** 1 scoop (5.8 g)

Amount per serving: Patented Amino Acid Blend** L-Leucine 1297 mg, L-Isoleucine 332 mg, L-Valine 342 mg, L-Lysine (L-Lysine monohydrochloride) 555 mg, L-Arginine 319 mg, L-Threonine 297 mg, L-Phenylalanine 213 mg.

Other ingredients: Citric acid, Natural Flavour, DL-Malic acid, Natural Lemonade Flavour, Potassium chloride, Sodium citrate, Steviol glycosides, Rebaudioside A, Natural Black Cherry Flavour.

MyoHealth® Essential Amino Acid Complex - Capsules

Quantity: 150 capsules **Serving size:** 5 capsules

Amount per serving: Patented Amino Acid Blend 3.6 G**: L-Leucine, L-Lysine HCl, L-Valine, L-Isoleucine, L-Arginine, L-Threonine, L-Phenylalanine, L-Methionine, L-Histidine, L-Tryptophan.

Other ingredients: hypromellose, magnesium stearate, and silica.

**Reginator® - US Patent #9,364,463

UNIQUE DELIVERY SYSTEMS

One of our 10 Foundational Values

Nutritional supplements include a wide variety of ingredients from vitamins and minerals to botanicals. While supplements vary in purpose and function, it's the form that allows each product's active ingredients to shine and produce results. Unlike other supplements that can be difficult to absorb, TriVita's supplements are developed for maximum absorption and effect.

There are four primary delivery systems for supplements: capsule, tablet, liquid and powder. Hard shell capsules and tablets are the two most common delivery systems, each with their own benefits. Hard shell capsules are available in a variety of sizes and are easier to swallow than traditional tablets. In addition to hard shell capsules, TriVita also offers softgels. Softgels are typically made from gelatin; however, vegetarian options are also available. Softgels are the ideal delivery system for fat-soluble nutrients, such as Vitamin D, and oil-based supplements like fish oil. Softgels are easy to swallow and offer the benefit of consuming a supplement without having the associated taste and smell, for example with fish oils.

We utilize a variety of tablet types with our products, including slow dissolve tablets which are used in our Alfred Libby's Slow Dissolve B12 and Super B12. These particular tablets are designed to stay in the

mouth until they are fully dissolved. This delivers nutrients quickly by being absorbed through the lining of the mouth rather than the stomach or small intestines, which studies have shown can lead to increased bioavailability. Another type of tablet we use is time-release tablets, as found in our Vital C Tablets, which allow the active ingredients to be released slower and more steadily into the body.

For those that struggle to swallow pills, liquid and powder products are excellent alternatives. Liquid concentrates require skillful design to avoid contamination and dilution while ensuring adequate consumption of the active ingredients. For liquid products to maintain their efficacy and freshness, they should be refrigerated after opening. Similar to liquid products, powdered supplements require meticulous care to ensure the end result is effective and tastes great. Formulated powders typically contain flavors to create a pleasant experience for the user when added to water or other beverages. It may seem like a simple task, but finding the right formula takes precision.

TriVita strives to offer products with a variety of functions and purposes that meet our customers' personal preferences. And each of our products is paired with a delivery system that improves bioavailability and creates the best experience.

CoEnzyme Q-10

Premium potency for cardiovascular wellness and healthy heart support

CoEnzyme Q-10 is an important “bioenergetic antioxidant” that’s concentrated in the heart. The natural aging process may deplete CoQ-10, potentially leading to low CoQ-10 status. Statin drugs may also deplete CoQ-10. This “CoQ-10 drain” may affect your heart: Low CoQ-10 has been linked to diminished cardiac energy and cardiovascular health concerns.¹⁻⁴

TriVita CoQ-10 may address these heart health concerns because it helps to replenish what statin drugs and aging may have taken away.⁵ By correcting your CoQ-10 status, you may promote this unique nutrient’s diverse range of cardio-supportive biological activities:

- CoQ-10 is necessary in adequate amounts for heart energy metabolism⁶
- CoQ-10 is a cardiovascular antioxidant that helps protect the heart and blood vessels⁷
- CoQ-10 supports the function of the blood vessel linings, potentially helping with circulation⁸
- CoQ-10 may help maintain heartbeat stability and the heart’s blood-pumping efficiency⁹
- CoQ-10 may help to maintain blood pressure that’s already within normal range¹⁰

Supplying 50 mg of quality CoQ-10 in each easy-to-swallow soft gel, TriVita CoQ-10 is a convenient way to help contribute to the CoQ-10 status that’s associated with healthy cardiovascular function.

“I just love TriVita’s CoEnzyme Q-10! I feel much better during the day. Thank you TriVita!”

- Nancy S.,
Member since 2003

Omega3 Prime

Premium fish oil concentrate for heart, brain and joint support

Omega-3 fatty acids EPA and DHA are among the most important brain health nutrients. When we're young, omega-3s help brain development;¹ in later years they protect against cognitive decline;² and throughout our lives they optimize brain cells for healthy function.³⁻⁵

The problem? Most of us don't get enough EPA or DHA.⁶ Fish oil supplements can help, but the market is littered with inferior products that may be rancid and fishy (often masked by dark soft gels), low in potency or harvested from polluted waters.

Omega3 Prime contains premium golden fish oil concentrate that is carefully formulated to be:

Potent: 1,000 mg serving is concentrated in omega-3s: 670 mg EPA and 125 mg DHA

Convenient: Just two small, easy-to-swallow soft gels make omega-3s a breeze to take

Pleasant: Natural lemon-flavored soft gels—no fishy odor or aftertaste

Quality, every step of the way:

- Highly refined and pharmaceutically distilled to provide the most pure form of omega-3s
- Multi-level testing with traceability throughout our supply chain, all the way to the finished product
- High quality control standards that help limit fish oil oxidation, neutralizing fishy odor and aftertaste
- Independent third-party laboratory analysis that verifies a clean, pure and potent fish oil product
- TriVita promotes sustainability to preserve the long-term health of oceans, by sourcing the omega-3 fish oil from Friend of the Sea suppliers. Friend of the Sea (FOS) is a registered non-profit non-governmental organization (NGO) that was founded in 2006 to conserve marine habitats and resources.

VitaCal-MagD™ K2

Calcium complex and Vitamin K2 for musculoskeletal support

Calcium plays a crucial role in maintaining strong bones, supporting their structure and function.¹ Calcium intake, when combined with sufficient Vitamin D, a healthy diet and regular exercise, may reduce the risk of developing osteoporosis.

But getting enough calcium can be a challenge, with many people failing to get the calcium they need from food alone.² On top of that, calcium absorption may drop by up to 20% in adulthood—and decline even further as we grow older, just when we start needing more.^{1,3}

Calcium complex for musculoskeletal health

VitaCal-MagD K2 features a premium calcium blend combined with magnesium, Vitamin D3 and Vitamin K2, which helps in the development and maintenance of bones and teeth, and to maintain proper muscle function (including the heart), energy metabolism and tissue formation.

Each serving provides:

Calcium (500 mg): VitaCal-MagD K2 features two types of calcium: calcium citrate and calcium carbonate.

Magnesium (250 mg): Magnesium plays a role in bone formation, bone mineralization and calcium transport, and regulates muscle function.^{4,5} It also helps convert Vitamin D to the active form in the body.

Vitamin D3 (500 IU): The body requires Vitamin D to absorb calcium properly. Too little Vitamin D may result in soft, thin and brittle bones.^{6,7}

Vitamin K2 (40 mcg): K2 may support bone mineralization and in one 3-year study, it was associated with stronger bones and improved markers of bone health when taken at higher daily doses.⁸

Adaptuit

Supports daily stress relief for a calmer, more relaxed you

Everyone has some kind of stress that they experience day in and day out, from financial and health stress to relationship, work and physical stress.

We all try our best to *adapt* to our particular stressors, but sometimes we need help.

Adaptuit with L-Theanine is formulated from a source of adaptogens that promote daily stress relief and well-being, while promoting an acute feeling of relaxation.

- L-Theanine is the unique, calming compound present in green tea, but without the caffeine^{1,2}
- Adaptuit® contains 125-375 mg of L-Theanine, per 29.5–88.7 ml. For comparison, there are approximately 25-60 mg of L-Theanine per 200 ml serving of tea³

L-Theanine has been shown to have positive effects on human health, such as promoting a feeling of calm, immune system support, and potentially counteracting the effects of caffeine.^{3,4}

“Adaptuit helped me manage my stress during a long-term caregiving job. I took 3 oz. in the morning and 2 oz. at the end of the day and it made a big difference.”

- Mary D.,
Member since 2011

Ingredients: L-Theanine 250 mg, Siberian ginseng (Eleutherococcus senticosus Root) 230 mg (4:1, QCE 920 mg), Goji (Lycium barbarum, Fruit) 66.7 mg, Rhodiola (Rhodiola rosea, Root) 50 mg (3% Rosavins, 1% Salidroside, 4:1, QCE 200 mg), Schisandra (Schisandra chinensis, Fruit) 120 mg (10:1, QCE 1200 mg), Grape (Vitis vinifera, Fruit) 16.5 mg (4000:1, QCE 66 g).

Other ingredients: Purified water, Vitis labrusca (Concord grape) fruit juice, Citric acid, Grape skin extract, Xanthum Gum, Blueberry juice powder, Potassium Benzoate, Rebaudioside A, Maltodextrin, Concord grape flavor, Ethanol, Glycerin.

VitaDaily

A once daily multi-vitamin to support your complete nutritional needs

Ever read a typical multi-vitamin's label? You may be surprised to see artificial food dyes, fake flavors and synthetic preservatives. Keep looking, and you may find “mega-doses” that seem to have way more nutrition than you want or need.

Finally! A multi-vitamin with no “bad stuff”

VitaDaily—TriVita’s once daily multi-vitamin—is here to change all that. We’ve crafted the ideal multi-vitamin for anyone who wants *clean* daily nutrition without unnecessary additives or excessive mega-doses that some other brands use. VitaDaily is:

Comprehensive: 24 vitamins and minerals.

Convenient: Small and easy-to-swallow tablets; just take one every day.

Dissolvable: Dissolved in under 30 minutes.

Is your nutritional intake “suboptimal”?

Nutrient deficiency may not be the only dietary concern to worry about. Researchers have noted that “suboptimal” nutrient intake—which is above deficiency levels—may *still* be a risk factor for many health concerns. Suboptimal nutrient intake is common in adults, especially the elderly.¹

ARE YOU GETTING ENOUGH?

Many North Americans could use help hitting their nutritional targets for overall health.²

- 34% need more Vitamin A
- 25% need more Vitamin C
- 70% need more Vitamin D
- 60% need more Vitamin E
- 38% need more Calcium
- 45% need more Magnesium

VitaDaily™

#30203 **\$16.99**

Vital C™ Crystal Tablets

Quantity: 60 tablets **Serving size:** 2 tablets
Amount per serving: Vitamin C (sodium L-ascorbate) 2g.

Other ingredients: Microcrystalline cellulose, stearic acid, croscarmellose sodium, magnesium stearate, silicon dioxide, hypromellose, hydroxypropyl cellulose, PEG-400.

Vital C™ Crystal Powder

Quantity: 165 grams **Serving size:** 1 g (1/4 teaspoon)
Amount per serving: Vitamin C (as sodium L-ascorbate) 1 g.

Essential D

Easy-to-swallow soft gels packed with a healthy dose of Vitamin D3

Many of us don't get enough Vitamin D. Causes of this deficiency may include:

- Getting older.** Vitamin D gets harder to absorb and synthesize with age.¹
- Staying indoors.** Your skin needs sunlight in order to make Vitamin D.²
- Sunblock.** Using SPF 8+ may reduce the skin's Vitamin D synthesis by 95%.³
- Overweight.** Carrying extra pounds may create D insufficiency risks.⁴

Essential D: Enhanced & absorbable Vitamin D3

Designed for easy absorption, Essential D starts with 1,000 IU of Vitamin D3 (Cholecalciferol), a bioavailable form that matches what your body produces naturally. The Essential D Proprietary Blend includes:

- Broccoli powder:** Supplies sulforaphane that may help regulate Vitamin D Receptor (VDR) genes.⁵
- Olive oil base:** Oil-based Vitamin D may be absorbed more efficiently than powder-based D.⁶

Vitamin D supports whole-body wellness:

- Bone density
- Immune function
- Cognitive health
- DNA repair & maintenance
- Muscle health
- Heart health
- Cellular metabolism
- Colon, prostate and breast health⁷

THIS PRODUCT IS ALSO GREAT FOR:

- ENERGY, STAMINA & PERFORMANCE SUPPORT**
- MUSCULOSKELETAL SYSTEM SUPPORT**
- NUTRITIONAL SUPPORT**

Essential D™

#31270 **\$16.99**

Earn 68 VitaPoints!

Suggested use: Adults take 1 soft gel daily or as directed by your healthcare provider. Do not exceed 2 soft gels daily unless directed by your healthcare provider.

DID YOU KNOW?

The following people are at higher risk for Vitamin D deficiency:

- People living in nursing homes or other institutions or who are homebound
- People taking medicines that affect Vitamin D levels
- People with very dark skin

VisionGuard

Advanced vision formula to help you see life more clearly

VisionGuard is packed with eye-supportive antioxidants that help to:

- Maintain eyesight in conditions (associated with sunlight damage), such as cataract and age-related macular degeneration
- Reduce the risk of developing cataracts
- Improve macular pigment optical density

It all starts with FloraGLO® lutein and zeaxanthin: botanical antioxidants that support vision health,^{1,2} but decline in our eyes with age.³ These two key antioxidants:

- Migrate naturally to the eyes, settling in the lens, macula and “high-definition” fovea⁴
- Act as internal sunglasses, filtering and absorbing the sun’s macula-damaging UV rays^{5,6}
- Replenish macular pigment, a protective retinal layer tied to crystal-clear vision^{7,8}

PLUS:

Antioxidants alpha lipoic acid (ALA), N-Acetyl-L-Cysteine, Vitamin C, natural Vitamin E and zinc.

Why does VisionGuard use FloraGLO® lutein?⁹

The most clinically researched lutein brand in the world, FloraGLO promotes vision health by helping defend from free radicals, potentially reduce the effects of eye aging, absorbing harmful UV rays, increasing the retina’s protective macular pigment and reducing sensitivity to glare and blindingly bright light.

VisionGuard™

#30572 **\$32.99**

Earn 132 VitaPoints!

Suggested use: Adults: 1 Capsule(s) 2 time(s) per day with food/meals, a few hours before or after taking other medications.

Warning: If you experience sweating, paleness, chills, headache, dizziness and/or confusion, discontinue use and consult a healthcare practitioner (as these may be symptoms of serious low blood sugar).

VisionGuard™

Quantity: 60 capsules **Serving size:** 2 capsules

Amount per serving: Vitamin C (Ascorbic acid, Sodium ascorbate) 152.9 mg, Vitamin E (d-alpha Tocopheryl acid succinate, dl-alpha Tocopherol) 33.48 mg Alpha-Tocopherol, Zinc (Zinc citrate) 12.5 mg, Copper (Copper (II) gluconate) 500 mcg, Selenium (Selenomethionine) 17.5 mcg, Lutein ((3R,3'R,6'R)-beta,epsilon-Carotene-3,3'-diol, Tagetes erecta-Herb flowering oleoresin) 5 mg, Zeaxanthin ((3R,3'R)-beta, beta-Carotene-3,3'-diol, Tagetes erecta-Herb flowering oleoresin) 0.2 mg, Zeaxanthin (all-trans-beta-Carotene-3,3'-diol) 0.8 mg, Bilberry (Vaccinium myrtillus, Fruit) 50 mg (82.5 % Oligomeric proanthocyanidins, 2:1, QCE 25 mg), Quercetin (2-(3,4-Dihydroxyphenyl)-3,5,7-trihydroxy-4H-1-benzopyran-4-one, Quercetin dehydrate) 11.875 mg, Glycine (Aminoacetic acid) 5 mg, N-Acetyl-L-cysteine 10 mg, Taurine (2-Aminoethanesulfonic acid) 50 mg, DL-alpha-Lipoic acid 25 mg, Rutin (3,3',4',5,7-Pentahydroxyflavone-3-rutinoside, Stymphnolobium japonicum – Flower bud) 12.5 mg.

Other ingredients: Magnesium stearate, Silicon dioxide, Gelatin, Black currant juice powder, Modified food starch, Glucose syrup, Sucrose, Corn Starch.

MyFloraDaily Probiotic

Probiotics are tiny health-promoting organisms in the gut

The gastrointestinal tract is the most exposed human habitat to the external environment. Every day, thousands of microorganisms and compounds derived from the digestive process come in contact with it, making the role of the gut as a protective barrier to pathogens essential.¹

However, as we reach middle age our immune system becomes less efficient. This applies to the microbiota of the gut as well. In order to maintain healthy digestion, you need to supplement your diet with a probiotic. MyFloraDaily helps support intestinal/gastrointestinal health, promotes a diverse and balanced gut microflora, and supports overall immune health.²⁻⁷

Make MyFloraDaily your probiotic

- MyFloraDaily contains one of the most clinically studied probiotic strains, *Lactobacillus GG*, a highly resilient strain that is able to survive through the GI tract and adhere to the intestinal mucus and epithelial walls. This allows for an extended, controlled release of probiotic strains in the small and large intestine.
- All the probiotic strains found in MyFloraDaily have been antibiotic-resistance tested and genetically identified to confirm strain identity. (Many competitive probiotic brands do not disclose the specific strains(s) in the product, even though strain identification ensures a higher quality product since the health benefits of probiotics are strain-specific).
- While many competitive probiotic brands need to be refrigerated to maintain the number of probiotic strains, **MyFloraDaily is shelf stable.**
- MyFloraDaily is allergen-free (no milk, eggs, fish, shellfish, nuts, wheat or soy).

MyFloraDaily Probiotic

#30830 **\$44.99**

Earn 180 VitaPoints!

Suggested use: Adults, take one tablet, once daily, or as directed by your healthcare professional.

DID YOU KNOW?

- MyFloraDaily is formulated with patented bio-tract technology for maximum absorption.
- TriVita guarantees 10 billion Colony Forming Units (CFU)—the good bacteria—in every dose at the time of manufacture and 5 billion at the one year expiration date.

MyFloraDaily Probiotic

Quantity: 30 tablet **Serving size:** 1 tablet

Amount per serving: Probiotic Blend (10 Billion CFUs at time of manufacture, 5 Billion CFUs at 12 months expiry): *Lactobacillus rhamnosus GG*, *Bifidobacterium breve Bb-03*, *Bifidobacterium lactis BI-04*, *Lactobacillus casei subsp. casei Lc-11*

Other ingredients: Microcrystalline cellulose, hydroxypropyl methylcellulose, pectin, sodium carbonate (anhydrous), stearic acid, guar gum, turmeric (color).

WELCOME TO THE PREMIER MEMBERSHIP REWARDS PROGRAM!

As a member, you can now start earning VitaPoints to help save money on your favorite products—and even receive products for FREE!

- 1 Earn 5X VitaPoints when you refer friends and family** – Share the benefits TriVita products offer you with the ones you love. When you refer others, you earn 5x (20%) points on their first purchase and on every purchase they make for life! The more referrals you make, the sooner you start earning enough to get your products for free!
- 2 Earn 2X VitaPoints with Auto Replenishment Program (ARP)** – Upgrade to ARP and receive double points (8%) with every delivery. ARP means no more worrying about running out of your favorite products or reordering because ARP orders are sent to you once monthly and guaranteed at the lowest advertised price. There's no obligation and you can cancel or change your order at any time.
- 3 Earn VitaPoints on personal product purchases** – You automatically receive points equal to 4% of the total value of your purchase on every product purchase you make.
- 4**  **Mega Bonus VitaPoint promotions** – Earn extra VitaPoints wherever you see the MegaBonus logo.

Along with FREE standard shipping on all orders over \$99, as a Premier Member you're also eligible for exclusive offers.

Premier Membership is free and makes buying TriVita products more affordable. VitaPoints are redeemable online or by phone. To check your VitaPoints balance, either visit TriVita.ca, sign in and click on **My Account**, call priority customer service at **855-383-0238** or check your latest **TriVita invoice**. You may use VitaPoints as you earn them or let them accrue for up to 12 months from date of issue.
